**(100) Service Quality Improvement Reporting
Data Collection Form**

FCC Form 481

OMB Control No. 3060-0986/OMB Control No. 3060-0819

July 2013

<010>	Study Area Code	100015
<015>	Study Area Name	COMMUNITY SERVICE
<020>	Program Year	2014
<030>	Contact Name - Person USAC should contact regarding this data	Barbara Galardo
<035>	Contact Telephone Number - Number of person identified in data line <030>	207-535-4126
<039>	Contact Email Address - Email Address of person identified in data line <030>	bgalardo@fairpoint.com
<110>	Has your company received its ETC certification from the FCC?	(yes / no) <input type="radio"/> <input checked="" type="radio"/>
	If your answer to Line <110> is yes, do you have an existing §54.202(a) "5	
<111>	year plan" filed with the FCC?	(yes / no) <input type="radio"/> <input type="radio"/>

If your answer to Line <111> is yes, then you are required to file a progress report, on line <112> delineating the status of your company's existing § 54.202(a) "5 year plan" on file with the FCC, as it relates to your provision of voice telephony service.

- <112> Attach Five-Year Service Quality Improvement Plan or, in subsequent years, your annual progress report filed pursuant to 47 C.F.R. § 54.313(a)(1). If your company is a CETC which only receives frozen support, your progress report is only required to address voice telephony service.

Name of Attached Document (.pdf)

Please check these boxes below to confirm that the attached PDF, on line 112, contains a progress report on its five-year service quality improvement plan pursuant to § 54.202(a). The information shall be submitted at the wire center level or census block as appropriate.

- <113> Maps detailing progress towards meeting plan targets
 <114> Report how much universal service (USF) support was received
 <115> How (USF) was used to improve service quality
 <116> How (USF) was used to improve service coverage
 <117> How (USF) was used to improve service capacity
 <118> Provide an explanation of network improvement targets not met in the prior calendar year.

Community Services Telephone Company provides a Lifeline Program discount for residence service for eligible low income customers. The Lifeline Program discount is applied to any month to month residence local service, package or bundle offering. The discount is intended to offset the Subscriber Line Charge and local line charge, although eligible packages and bundles may have toll calling included in the pricing for the offering.

The Catalog and Tariff pages outlining the terms of the Lifeline Program in Community Services Telephone Company are attached. The terms and conditions of residential basic local exchange service, package and bundle offerings can be found at <http://www.tariffs.net/fairpoint/tier.asp?cid=1644>.

SECTION 2 - GENERAL REGULATIONS, (Cont'd.)

2.15 LifeLine Service Program

The Company shall provide Lifeline service as defined in 47 C.F.R. § 54.401 (a) on a non-discriminatory basis to all qualifying low-income customers. The Company's Lifeline service offering shall comply with all applicable federal and state laws, including, but not limited to 47 C.F.R. Part 54, Subpart E; the FCC's Lifeline reform order (Report and Order released February 6, 2012, WC Docket No. 11-42, et.al) and any subsequent clarifying orders.

2.16 Enhanced Universal Emergency Number Service - E911 Surcharge

An Enhanced Universal Emergency Number Service (E911) surcharge as provided in 25 MRSA Section 2927 (1-A), applies per month to each residence and business telephone exchange line, including PBX trunks and Centrex lines, Public access Smart Line (PASL) and public access lines in addition to the monthly rates for these lines specified elsewhere in the tariff. The surcharge shall not be imposed upon more than 25 lines per Customer billing account.

2.17 School and Library Fund Surcharge

A School and Library Fund Surcharge applies per month as a percentage to each residence and business Customer's bill for all intrastate retail charges for telecommunications service. The surcharge percentage shall be as directed by the Maine Public Utilities Commission.

SECTION 7 - AUXILIARY EXCHANGE SERVICES (Cont'd.)

7.4. TOLL RESTRICTION SERVICE*

A. GENERAL

1. Toll Restriction Service is offered with one-party exchange service (except PBX trunk lines) in suitably-equipped central offices to the extent that existing facilities are available.
2. If a Customer's local serving office is not suitably equipped, Toll Restriction Service can be furnished on a Foreign Exchange Service Basis, subject to the availability of facilities. Rates and Charges as specified in this tariff for Foreign Exchange Service would apply.
3. Lifeline customers may elect toll restriction that will block all MTS call attempts, including 1+, 0+, and 0- calls as well as collect and/or third number calls to their particular number. There will be no initial connection charge or monthly charge for this service to Lifeline customers.

B. DESCRIPTION

Toll Restriction Service comprises the following optional features which are available individually or in any combination.

1. ORIGINATING NUMBER SCREENING
2. DIRECT DIALED SCREENING -blocks all directly-dialed toll calls except calls to 800 numbers. Directly dialed calls to Directory Assistance are denied. Toll and Directory Assistance calls may be placed on an operator-handled basis. This feature is offered only in exchanges where suitable facilities exist.
3. OPERATOR NUMBER SCREENING-alerts the operator that operator-handled toll calls and operator-handled Directory Assistance calls may not be billed to the originating number. Calls may be placed on a calling card, collect or charge to a third number basis.
4. TERMINATING NUMBER SCREENING -alerts the operator throughout the country that collect and/or bill-to-third number calls cannot be billed to that particular number. Terminating Number Screening is available individually as well as in a combination of services at the same price.

*Available with POLR service

RESIDENTIAL ECONOMY AND PREMIUM SERVICE (Cont'd)

6.3 Regulations Concerning Residential Economy and Premium Service

- A. Calls Outside the Economy Calling Area - Residential Economy Service Customers may make local calls from their Home Exchange to the Premium Exchanges included in Section 6.4.A at a per-minute rate. The per-minute rate for such calls is set forth in Part M, Section 3 of this Tariff. Calls made from the Home Exchange to locations within the State of Maine, other than those listed in Section 6.4.A are billed to the Customer at the applicable intrastate Toll Rates.
- B. Calls Outside the Premium Calling Area - Calls made from the Home Exchange to locations within the State of Maine, other than those listed in Section 6.4.A are billed to the Customer at the applicable intrastate Toll Rates.
- C. Changes in Calling Areas - The Customer's initial selection of either the Economy Calling Area Service offering or the Premium Calling Area Service offering is without charge. Subsequent changes by the Customer are subject to the applicable Service Order Charge as identified in this Tariff. If only one Calling Area Service offering is available for an Exchange, the Customer will automatically be classified under the available service offering and no charge will apply.
- D. Rates - The applicable rates for the Company's Residential Premium Service are listed in Part M, Section 3 of this Tariff.
- E. Lifeline - The Company shall provide Lifeline service as defined in 47 C.F.R § 54.401 (a) on a non-discriminatory basis to all qualifying low-income Customers. The Company's Lifeline service offering shall comply with all applicable federal and state laws, including, but not limited to, 47 C.F.R. Part 54, Subpart E; the FCC's Lifeline reform order (Report and Order released February 6, 2012, WC Docket No. 11-42, et. al) and any subsequent clarifying orders.
- F. Municipal Calling Service - Customer shall receive toll free calling, where practicable, to any other customer of a Provider of Last Resort within the municipality in which the Customer resides so long as Customer is utilizing an intralata toll provider for whom Company provides billing to the Customer. In the event Customer is charged by an intralata toll provider for whom Company provides billing to the Customer for a call to a Provider of Last Resort customer within the municipality in which Customer resides, Company shall remove any charges associated with any such municipal calling from the Customer's bill, when notified by the Customer.

Service Quality Reporting/Consumer Protection Rules Compliance:

Northern New England Telephone Operations LLC, hereby certifies that it is complying with applicable service quality standards and consumer protection rules. The Company complies with service quality and consumer protection provisions under state law. These provisions include, but are not limited to, the following: (1) filing a Local Exchange Tariff pursuant to the requirements of The Maine Public Service Commission which discloses rates, terms and conditions of service to customers; (2) compliance with state consumer protection provisions relating to Customer Services as identified in the Code of State Regulations, compliance with provisions for Quality of Service as identified in the Code of State Regulations, compliance with Service Objectives as identified in the Code of State Regulations, compliance with customer Inquiry procedure as identified in the Code of State Regulations, compliance with Dispute standards as identified in the Code of State Regulations; (3) compliance with truth-in-billing requirements; and (4) compliance with Federal CPNI rules, Red Flag Rules and other applicable federal and state requirements governing the protection of customers' privacy.

In establishing this certification in its *2005 ETC Order*,¹ the FCC found that an ETC must make "a specific commitment to objective measures to protect consumers."² The Commission found that for wireless ETCs, compliance with CTIA's Consumer Code for Wireless Service would satisfy this requirement and that the sufficiency of other commitments would be considered on a case-by-case basis. In this context, the FCC stated, "to the extent a wireline or wireless ETC applicant is subject to consumer protection obligations under state law, compliance with such laws may meet our requirement."³

Community Service Telephone Company is not currently under any "formal" Service Quality Reporting. The company does report Service quality metrics on a quarterly basis. This is based on a verbal agreement with the Maine Public Utilities commission (the PUC). The TG companies report quarterly on 5 metrics: The five metrics are – Network Trouble report rate, % troubles not cleared in 24 hours, % install appointments not met, Average delay days for missed appointments, and outages. There are no benchmarks and no consequences for not reaching certain numbers.

If a customer has a concern about their FairPoint Communications' service or billing, he/she can contact repair service, technical support or customer service with information found on their statement. Customers may also contact agencies, through information posted in the phone directory, website, and tariff pages. All consumer complaints whether from Attorney Generals' offices, Public Utility Commissions, Better Business Bureaus, Federal Communications Commission and all other agencies are sent to the FairPoint Communications' Maine office via U.S. Mail or by electronic mail at consumer@fairpoint.com. The complaints are directed to the appropriate responsible Company Team member within FairPoint Communications for resolution and response to the customer.

Business Continuity Plan Overview

Introduction

FairPoint Communications, Inc. ("FairPoint") is committed to maintaining a vigilant state of disaster preparedness for the interests of our customers, stockholders, employees and other critical stakeholders.

The purpose of our Business Continuity Plan (BCP) is to define the disaster preparedness and recovery protocols and procedures required to restore FairPoint's critical business support functions, inside and outside plant systems and operations within FairPoint's operating footprint.

BCP components detail FairPoint's procedures for preparing for and responding to an emergency situation affecting our ability to deliver core services to our customers and our ability to meet legal dictates, and regulatory requirements.

This document discusses the following:

- BCP Scope & Structure
- Recovery Strategies and Logistics
- Plan Maintenance and Exercising

BCP Scope

FairPoint's business continuity response planning is concentrated on two critical operational areas:

- Customer Interfacing – It is recognized that a "business impact" only occurs when an external-interfacing element is disrupted. In essence, this means that if FairPoint experiences a disruptive event, but one that does not breach the outer-shell of the FairPoint operation and interrupt critical customer services, customer product or other external end-user, then it does not have a business impact, as defined by the BCP
- Infrastructure Integrity – Without critical infrastructure systems, the ability for all other FairPoint business operations (back/front office) can come to a halt. It is these infrastructure systems that provide the critical human-factor of our customer-interfacing services. Critical infrastructure would address such services / systems as, building space for staff, service utilities, telecom network, IT network, etc.

The BCP has been developed to assure the continuity of critical customer interfacing services and systems should a physical incident or workforce disruption event occur, which affects:

- IT/IS
- Administrative and Support Operations
- Inside and Outside Plant Operations
- NOC (Network Operations Center)
- E-9-1-1
- Dispatch
- Repair Center

FairPoint has developed response / recovery strategies addressing physically disruptive incidents and workforce related disruptive incidents (i.e., work-stoppage and pandemic). All response strategies are based on recovery time objectives of those department functions and critical infrastructure systems essential to sustain customer interfacing services.

FairPoint Communications

Barney Boynton
Director, Operational Risk

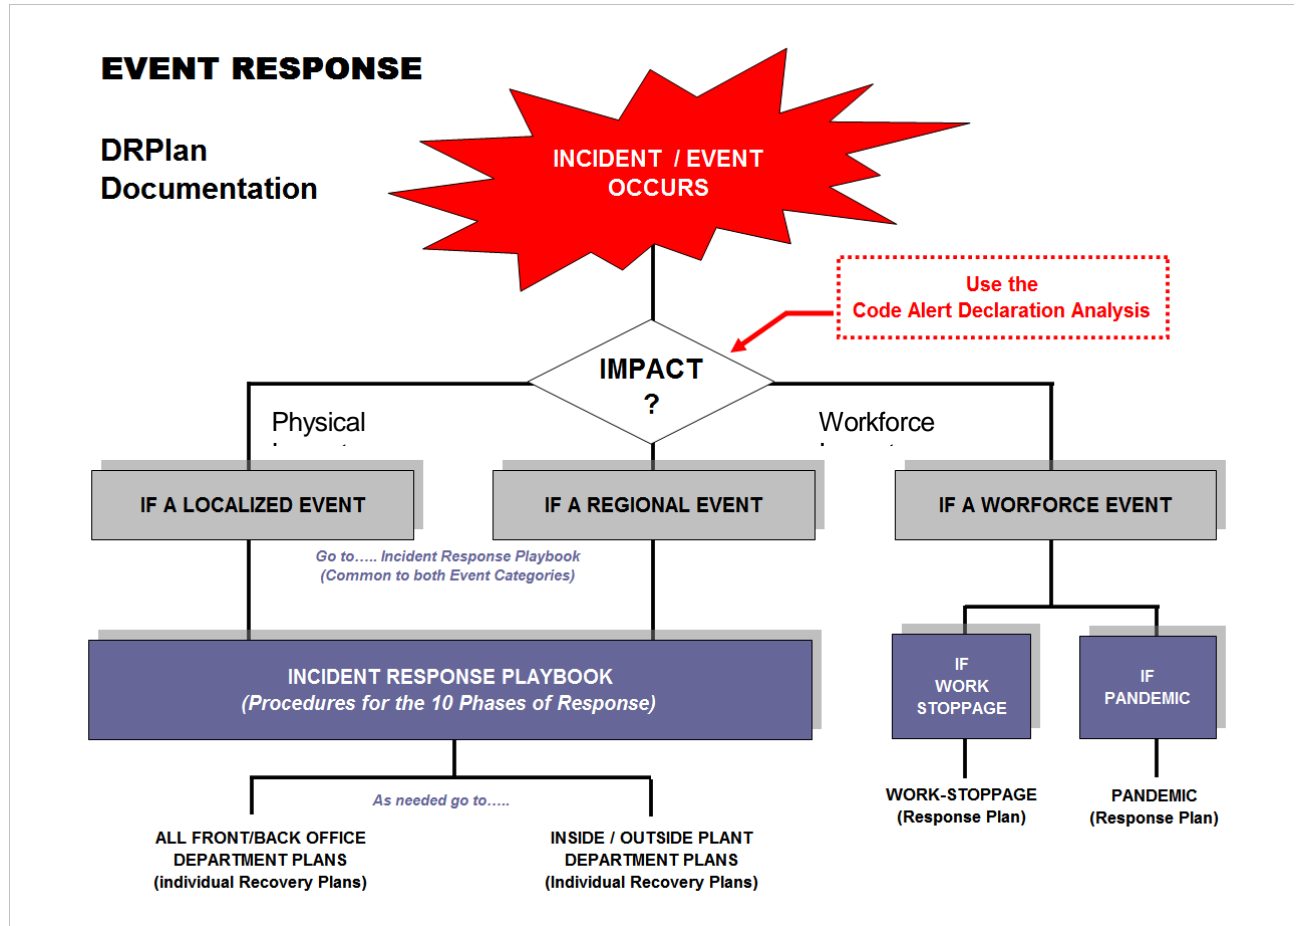

BCP Structure

The BCP consists of several components:

- The BCP Manual (an overview of all BCP documents)
- IR Playbooks (addresses the response procedures for Physical and Workforce related events),
- Appendices (the IR Playbook procedures links to these Resources Files)
- Department Recovery Plans (Business and Plant Operations)
- Business Impact Assessments (Business and Plant Operations)

The Event Response diagram below identifies the overall BCP documentation and how a disruption or incident will dictate which path of the BCP will be followed to restore business operations.

Once the incident or disruption occurs, the impact first needs to be quickly assessed to determine whether it is a physically disruptive event (local or regional) ("Physically Disruptive Event") or a workforce disruptive event (work-stoppage or pandemic) ("Work-Force Related Disruptive Event"). The disruption is always focused on critical business operations and services that can impact customer interfacing / deliverables.

Recovery Strategies and Logistics

Our BCP is based on the premise that FairPoint cannot stop disasters from occurring, but we can address the IMPACT of incidents should they occur. Where possible we will provide risk mitigation measures that will minimize the likelihood of having a serious disruptive incident but in no case can we eliminate all disruptive possibilities. The BCP is triggered by a Disruption Scenario, not a Threat Scenario. FairPoint pre-plans for potential break-points that can result in a customer interfacing disruption and incorporates recovery strategies that will inherently address any potential threat and any resulting business disruption impact. The actual threat (i.e. fire, flood, etc.) is pertinent only with respect to immediate response activities. All subsequent response efforts are focused on the assessment of damages (physical losses and recovery duration) and the implementation of restoration and recovery strategies. The restoration of the business servicing operations and infrastructure systems is based on salvage, replacement of systems and alternate functionality measures, which are pre-defined in the BCP.

Each department has developed a recovery plan based on its critical operations as they pertain to the deliverables they contribute to our customers. FairPoint has triaged the recovery efforts based on the concept of customer servicing impact. Federal and State regulatory requirements have a high level of consideration in

FairPoint Communications

1 Davis Farm Road
Portland, ME 04103

Barney Boynton
Director, Operational Risk

addition to the business impact concerns. The BCP goal is to minimize the disruption duration as much as is practical and provide a level of risk mitigation that will maintain critical operations.

The Ten Response Phases of Physical Event are:

- Incident Notification
- Visual Damage Assessment
- Incident Stabilization
- Command Center Initiation
- Initial Notifications to Business Departments – to activate plans
- Primary Site Damage Assessments
- Ready Alternate Restoration Sites
- Primary Site Salvage & Recovery
- Business Restoration Process
- Primary Site Re-established

Plan Maintenance and Exercising

The BCP is a living document. Updates to the plan are ongoing with changes incorporated annually at a minimum. Individual plan components are scenario tested with oversight from FairPoint's Corporate Risk Management Team.
